

EASY AND INTUITIVE PROGRESS

Generous volume and excellent lateral stability make the Link a forgiving platform for learning. Its balanced length and parallel rails help new sailors track straight and build confidence as they improve their skills.

BUILT TO LAST

Engineered for the demands of daily use in professional training environments, the Link's durable construction and thoughtful details help clubs and schools get the most out of their investment. Its robust build means more time on the water with less downtime for repairs, ensuring a better return on every board in your fleet.
